

Premiere at Siggraph - DOSCH DESIGN presents DOSCH Audio: Hollywood Openers

(August 18th 2010) An aura of Hollywood-glamour accompanies the new product DOSCH Audio: Hollywood Openers, thereby offering itself for a world premiere at the doorstep of Hollywood. With its audience of experts and professional users, plus the proximity to Tinseltown, the Siggraph 2010 in Los Angeles was the ideal place chosen by Sebastian Dosch, the CEO of DOSCH DESIGN, in order to introduce DA: Hollywood Openers.

The audio product contains what the title promises: 11 music pieces delivering a firework of emotions. Sentimental, theatrical, dynamic, riveting and even dramatic – those are only a few of the adjectives which characterize DA: Hollywood Openers. Specifically for this recording DOSCH DESIGN booked the “Archi dello Spirito” orchestra from Hungary, which extensively rehearsed all 11 pieces together with the chorus “Pro Pace”, for the full, lush sound Hollywood movies are known for all over the world. The result speaks for itself: Every piece connects through its high-quality and extraordinary interpretation.

The tracks are perfectly suited in order to support or even enhance presentations, trailers, documentaries and visualizations with a highly beneficial acoustic foundation or backdrop. The website www.doschaudio.com provides the opportunity to review the character, feel and quality of every track through an easy-to-play sample.

DOSCH Audio: Hollywood Openers are available as a complete set for \$99.00, and can also be conveniently downloaded from the homepage. Users who need individual tracks for smaller projects can acquire those selectively. The great advantage of this product: As all products from the DOSCH Audio line the Hollywood Openers are also royalties free. No complicated or costly copyright considerations are necessary.

About DOSCH DESIGN

DOSCH DESIGN develops demand-inspired computer graphics products for professional use in the areas of 3D-design, visualization, animation, movies/TV and desktop publishing. In this endeavor Dosch Design translates its high quality-standards on the development side into equally high-quality products with an attractive price-performance ratio. When used in compliance with the license agreement, Dosch Design products are always license-free, therefore not causing any further cost when used commercially.
